

TIM SHEPPEL

Product Management & Innovation | Experience Design | Behavioral Insight | Data-Driven Decision Making

925-588-4774 · timsheppel@gmail.com · New York, NY · <https://tsheppel.github.io/portfolio-site>

Profile

Product and innovation-focused thinker with a foundation in industrial psychology and strategic design. Known for generating creative, human-centered ideas, testing their viability through research and analysis, and driving concepts toward real-world execution in ambiguous, early-stage environments.

Selected Experience

Assistant Manager and Data Analyst | Mathnasium **June 2024 – May 2025**

- Analyzed performance data across ~700 students and five centers to identify trends and gaps
- Built dashboards that translated data into clear, actionable insights for leadership
- Supported improvements in student retention and learning outcomes across locations
- Held center leaders accountable to weekly goals through structured insight and follow-up

High School Math Tutor | Lafayette Academy **December 2023 – June 2024**

- Helped students improve academic performance through structured, concept-driven instruction
- Adapted teaching based on individual comprehension and learning progress

Group Fitness Coach | Orangetheory Fitness **March 2022 – August 2022**

- Led ~20+ person classes, delivering real-time instruction across cardio and weight-floor activities
- Coordinated dual workout tracks with precise, time-based cues (~1-minute intervals)
- Adapted coaching for clients with injuries or limitations to ensure safe participation

Social Science Research Assistant | CSEUB **August 2021 – May 2022**

- Conducted personality research, developed independent research question and presented findings at a public conference
- Assisted in negotiation research, contributing to analysis and refinement of a paper submitted for publication
- Supported multiple faculty projects through research design, data analysis, and synthesis of findings
- Created diagrams illustrating group dynamics concepts for an open-source academic textbook

NASM Certified Personal Trainer | Fitness 19 **July 2018 – August 2019**

- Managed 6–7 concurrent clients; designed individualized programs using biometric and behavioral data
 - Adapted performance plans based on measurable outcomes and adherence patterns
 - Balanced client retention, scheduling logistics, and front-desk operations
-

Education

MS Strategic Design and Management | The New School **August 2025 – Current**

BS Industrial and Organizational Psychology | California State University East Bay **May 2022**
